

HMP Peterborough

A guide to sending in property for residents

Residents at HMP Peterborough can have items sent into the establishment by family and friends. To do this, the resident needs to apply for a log number, which needs to be displayed on all packages sent into the establishment.

When sending items into the prison, please make sure that you clearly display the resident's log number on the package. You must also attach the return address and your name on the parcel.

Please note, all parcels are subject to strict security procedures.

What can you send in for residents?
