

# Sodexo Project Management success stories

Sodexo delivers a huge variety of projects in different business sectors, worth hundreds of millions of Euros a year.

## Indonesia, Malaysia and Thailand - Google

At Google's offices in Jakarta, Kuala Lumpur and Bangkok, Sodexo carried out the design and specification of office welfare and hospitality areas. Subsequently, Sodexo managed the procurement and equipment fit-out of these areas in accordance with the designs.

## U.K - Stoke Mandeville hospital

There was an acute lack of parking at Stoke Mandeville Hospital, despite extensive improvements being delivered through a sizable PFI scheme. Having exhausted all avenues of securing funding for a multi-storey car park, the NHS Trust turned to their FM partner Sodexo for help. The Sodexo team developed an innovative way of creating a funding stream for this essential construction project which will see the parking issues resolved.

## US - Rensselaer Polytechnic Institute

The oldest technological university in the US asked Sodexo to develop a solution to its overcrowded and outdated dining facility. Sodexo completed a \$5.5 million, 12,000 ft<sup>2</sup> construction project that included an addition of a 4,500 ft<sup>2</sup> seating area with a multiple purpose terrace roof.

## Hawaii - The Kapi'olani Medical Center

The Centre struggled to keep the facility cool without incurring high energy costs in Oahu Island's consistently warm climate. Sodexo's team of highly experienced engineers and facilities experts evaluated cooling solutions and replaced the existing chiller systems in the facility with an environmentally friendly off-peak cooling system (OPC) utilizing thermal energy and saving the facility millions of dollars in energy costs.

## Success Stories

### **Czech Republic – Soci t  G n rale**

Sodexo project-managed the technical audit of server rooms for this multi-national banking and financial services company.

### **Malaysia - National instruments**

Full turnkey project management by Sodexo of National Instrument's corporate offices as well as the interior design and fit out of welfare facilities.

### **US - National Zoological Park**

At this 163 acre zoological park set in the heart of Washington, DC, Sodexo was awarded a multi-million dollar contract to improve the zoo's facilities. The contract included the project management, planning, design, renewal and enhancement of several facilities while preserving historical designations, improving traffic flow, weather protection, concept branding and signage. The contract also included the construction of a new dining facility.

### **Switzerland – Johnson & Johnson**

Sodexo project managed the move of about 700 employees into one newly-constructed building over a three month period.

### **Portugal – Nestle**

A major project on a 7,000 m<sup>2</sup> site in Lisbon. Sodexo was involved in several different projects, including civil works, technical facilities and equipment installation, fit out and layout designs, HVAC and electrical installations.

### **US - Cambridge health Alliance**

Somerville Hospital, serving Boston's metro-north community, was faced with ageing infrastructure, high energy and operational costs, and occupant comfort issues. Sodexo renewed the facility infrastructure by replacing the ageing heating/cooling system with a new building management system that addressed both patient comfort and generated operating efficiencies of \$358,000 per annum. These savings over a 10-year period will pay for 80% of the project cost.
